

Cleaning & Care Guide

SilkSurface™

SilkSurface Kitchen Benchtops:

Wipe clean with a soft damp cloth or sponge. For basic stains, clean with mild detergents. It is recommended to periodically clean the surface with a mild non-abrasive cleanser to maintain a uniform appearance.

Avoid contact with strong chemicals such as paint removers, acetone, oven cleaners and other strong chemicals. Routine cleaning with soap, water and a sponge, or window cleaner and paper towel will remove most dirt and stains. For more stubborn stains, gently rub the stain with a scouring cleanser and a white/light coloured non-abrasive ScotchBrite-style pad and water. Always rub in a circular motion, then rinse and towel dry.

To keep your kitchen benchtop looking sparkling bright ask about our SilkSurface Benchtop Polish. It doesn't only clean, it leaves a silky smooth polished finish.
